N. P. N. SEMI-ANNUAL INDEX

Of Technical and Semi-Technical Refinery Articles

JULY-DECEMBER, 1936

Title	Issue	Page
Asphalt, Road Oils, Road Materials		
New Road Building Machine, "Walking Pug-Mill" Will Sell More Asphalt, by M. G. Van Voorhis	July 8,	23
Asphalt Institute Issues Road Asphalt Specifications	July 29,	24-B
Oil's Place in Road Building Subject for Two Conferences: National Road Oil Congress and Montana Bituminous Conference	Aug. 5,	18
Road Men See Need for Specifications Related to Service Behavior, by Jack N. Westsmith	Sept. 16,	24-A
Chemical Properties of Bituminous Road Materials, Part I, by Norman W. McLeod	Sept. 30,	25
Part II	Oct. 21,	32
Research Plan Approved On Road Oil, Asphalt Characteristics by National Road Oil Congress	Oct. 14,	18
How Montana Constructs Bituminous Highways	Oct. 14,	19
Cracking and Polymerization		
Generalized High Pressure Properties of Gases, by K. M. Watson and R. L. Smith	July 1,	29
New Forward Cracking Process Makes 75% of Substituted Benzenes, by Wm. Kaplan and W. E. Forney	July 8,	35
Gasoline Products—Donnelly Process New Licensing Agreement Clarifies Cracking Patent Situation, by Arch L. Foster	July 29,	24-A
Reforming Unit at McClanahan Refineries, St. Louis, Mich. Designed for Future Cracking and Reforming With Minimum Additions, by Arch L. Foster	Aug. 19,	26
Polymerization to Feature Second W.P.R.A. Operator Meeting	Oct. 7,	20
New Furnace Design Features Dubbs Unit At Barnsdall Refinery, by Allen S. James	Oct. 7,	21
Cracking Development Conference Studies Welding, Corrosion	Oct. 7,	24
Sound Engineering Features Modern Trend In Cracking Processes, by R. P. Mase	Oct. 7,	25
Polymerization a Major Factor in Tomorrow's Super-Fuels, by Gustav Egloff	Oct. 14,	25
Polymerization Economics Studied at W. P. R. A. Refinery Operators Meeting, by Allen S. James	Oct. 21,	21
Products of Polymerization, by C. M. Ridgway, C. R. Wagner and H. R. Swanson	Nov. 4,	47
Polymerization Cost Yields, by J. S. Carey	Nov. 4,	64
Modern Cracking of California Crudes, by J. C. Morrell, Edwin F. Nelson, and Gustav Egloff	Nov. 4,	78
High Fuel Line Temperatures Cut Motor Fuel Economy, by Jack N. Westsmith	Nov. 11,	24-B
New Furnaces Offer Operating and Construction Economies, by Allen S. James	Nov. 11,	24-C
Radiant Refinery Heaters, Their Design and Application; Furnace Design Stops Overheating, Reduces Building Costs, by F. H. Praeger and T. B. Leech	Dec. 2,	91
Champlin—Gasoline Products Cracking Patent Decision Upheld by New Mexico Court	Dec. 9,	16
Hydrogenation		
Cannel Coal as Source of British Gasoline Seen by J. Jamieson and Dr. J. G. King, British Fuel Research Station	July 15,	28
Hydrogenation Plants Promoted by Italy	Aug. 12,	78
Motor Fuel Produced From Coal By 3 Processes in Germany, by Oberghauptmann Schlattmann and Dr.-Ing. E. b. H. Koppenberg	Sept. 9,	24-E
British Seek Site for Another Petroleum Low-Carbonization Plant	Dec. 23,	18
Lubricants and Lubrication		
(See also "Specifications")		
7 Centralized Lubrication Systems in Modern Steel Mill; Bethlehem's New Strip-Sheet Mill at Lackawanna	July 8,	43
New Test Methods Proposed by A. S. T. M. for Kinematic Viscosities	July 15,	25
High Viscosity Index Lubricants Announced by S. O. New Jersey	July 15,	31
E. P. Lubricants To Be Required by Most 1937 Model Cars, by John W. Thompson	July 22,	32
Meaning of Some Terms Used in Lubrication; Determination of Friction Coefficients Should Be Standardized, Article 2, by A. W. Burwell and J. A. Camelford	Aug. 12,	38
1937 Cars in Production; E. P. Lubes Offer Problems, by John W. Thompson	Sept. 9,	23
Varied E. P. Lube Specifications Complicate Servicing Cars, by John W. Thompson	Sept. 30,	36
Lubrication of Hypoid Gears Problem of 1937 Models, by John W. Thompson	Oct. 14,	53
Pure Fatty Acids Superior to Neutral Fats for Grease Manufacture, by M. L. Sheely	Oct. 28,	26
An Immediate Joint Problem; Lubrication of Hypoid Gears, by Arch L. Foster	Nov. 11,	30
The Newer Bearing Materials and Their Lubrication, by H. C. Mougey	Nov. 11,	31
Increasingly Powerful E. P. Lubricants Required in Automotive Rear Axles and Hypoid Gears, by H. R. Wolf	Nov. 11,	37
Solvent Extraction Processes, by R. E. Hersh	Nov. 4,	30
Burden of Servicing Hypoid Gears to Fall On Oil Companies, by John W. Thompson	Nov. 25,	15
Chevrolet Uses Hypoid Rear Axle; Specifies Factory-Approved Lube, by John W. Thompson	Nov. 25,	20
Fatty Acid Nitriles, Amides, Ketones for E. P. Lube Making, by A. W. Ralston, C. W. Christensen, E. J. Hoffman, W. W. Selby and V. Conquest	Dec. 9,	59
Chevrolet Approves 70, Buick 50, Hypoid Lubes	Dec. 16,	58
Patents Show Trend in Extreme Pressure Lube Technology, by J. Harold Byers	Dec. 16,	79
Performance Specifications for E. P. Lubricants? by Arch L. Foster	Dec. 23,	49
Motor and Other Fuels		
(See also "Specifications")		
Ample Future Supply of Diesel Fuel Obtainable From Various Sources, by Wm. H. Hubner and Gustav Egloff	Aug. 5,	25
Characteristics of Fuel Oil . . . Their Effect On Burner Performance, by E. B. Glendenning and W. A. Sullivan, Jr.	Aug. 12,	41
Synthetic Motor Fuels Discussed at World Power Conference	Sept. 9,	12

N. P. N. SEMI-ANNUAL INDEX

Of Technical and Semi-Technical Refinery Articles

JULY-DECEMBER, 1936

Title	Issue	Page
Asphalt, Road Oils, Road Materials		
New Road Building Machine, "Walking Pug-Mill" Will Sell More Asphalt, by M. G. Van Voorhis	July 8,	23
Asphalt Institute Issues Road Asphalt Specifications	July 29,	24-B
Oil's Place in Road Building Subject for Two Conferences: National Road Oil Congress and Montana Bituminous Conference	Aug. 5,	18
Road Men See Need for Specifications Related to Service Behavior, by Jack N. Westsmith	Sept. 16,	24-A
Chemical Properties of Bituminous Road Materials, Part I, by Norman W. McLeod	Sept. 30,	25
Part II	Oct. 21,	32
Research Plan Approved On Road Oil, Asphalt Characteristics by National Road Oil Congress	Oct. 14,	18
How Montana Constructs Bituminous Highways	Oct. 14,	19
Cracking and Polymerization		
Generalized High Pressure Properties of Gases, by K. M. Watson and R. L. Smith	July 1,	29
New Forward Cracking Process Makes 75% of Substituted Benzenes, by Wm. Kaplan and W. E. Forney	July 8,	35
Gasoline Products—Donnelly Process New Licensing Agreement Clarifies Cracking Patent Situation, by Arch L. Foster	July 29,	24-A
Reforming Unit at McClanahan Refineries, St. Louis, Mich. Designed for Future Cracking and Reforming With Minimum Additions, by Arch L. Foster	Aug. 19,	26
Polymerization to Feature Second W.P.R.A. Operator Meeting	Oct. 7,	20
New Furnace Design Features Dubbs Unit At Barnsdall Refinery, by Allen S. James	Oct. 7,	21
Cracking Development Conference Studies Welding, Corrosion	Oct. 7,	24
Sound Engineering Features Modern Trend In Cracking Processes, by R. P. Mase	Oct. 7,	25
Polymerization a Major Factor in Tomorrow's Super-Fuels, by Gustav Egloff	Oct. 14,	25
Polymerization Economics Studied at W. P. R. A. Refinery Operators Meeting, by Allen S. James	Oct. 21,	21
Products of Polymerization, by C. M. Ridgway, C. R. Wagner and H. R. Swanson	Nov. 4,	47
Polymerization Cost Yields, by J. S. Carey	Nov. 4,	64
Modern Cracking of California Crudes, by J. C. Morrell, Edwin F. Nelson, and Gustav Egloff	Nov. 4,	78
High Fuel Line Temperatures Cut Motor Fuel Economy, by Jack N. Westsmith	Nov. 11,	24-B
New Furnaces Offer Operating and Construction Economies, by Allen S. James	Nov. 11,	24-C
Radiant Refinery Heaters, Their Design and Application; Furnace Design Stops Overheating, Reduces Building Costs, by F. H. Praeger and T. B. Leech	Dec. 2,	91
Champlin—Gasoline Products Cracking Patent Decision Upheld by New Mexico Court	Dec. 9,	16
Hydrogenation		
Cannel Coal as Source of British Gasoline Seen by J. Jamieson and Dr. J. G. King, British Fuel Research Station	July 15,	28
Hydrogenation Plants Promoted by Italy	Aug. 12,	78
Motor Fuel Produced From Coal By 3 Processes in Germany, by Oberghauptmann Schlattmann and Dr.-Ing. E. b. H. Koppenberg	Sept. 9,	24-E
British Seek Site for Another Petroleum Low-Carbonization Plant	Dec. 23,	18
Lubricants and Lubrication		
(See also "Specifications")		
7 Centralized Lubrication Systems in Modern Steel Mill; Bethlehem's New Strip-Sheet Mill at Lackawanna	July 8,	43
New Test Methods Proposed by A. S. T. M. for Kinematic Viscosities	July 15,	25
High Viscosity Index Lubricants Announced by S. O. New Jersey	July 15,	31
E. P. Lubricants To Be Required by Most 1937 Model Cars, by John W. Thompson	July 22,	32
Meaning of Some Terms Used in Lubrication; Determination of Friction Coefficients Should Be Standardized, Article 2, by A. W. Burwell and J. A. Camelford	Aug. 12,	38
1937 Cars in Production; E. P. Lubes Offer Problems, by John W. Thompson	Sept. 9,	23
Varied E. P. Lube Specifications Complicate Servicing Cars, by John W. Thompson	Sept. 30,	36
Lubrication of Hypoid Gears Problem of 1937 Models, by John W. Thompson	Oct. 14,	53
Pure Fatty Acids Superior to Neutral Fats for Grease Manufacture, by M. L. Sheely	Oct. 28,	26
An Immediate Joint Problem; Lubrication of Hypoid Gears, by Arch L. Foster	Nov. 11,	30
The Newer Bearing Materials and Their Lubrication, by H. C. Mougey	Nov. 11,	31
Increasingly Powerful E. P. Lubricants Required in Automotive Rear Axles and Hypoid Gears, by H. R. Wolf	Nov. 11,	37
Solvent Extraction Processes, by R. E. Hersh	Nov. 4,	30
Burden of Servicing Hypoid Gears to Fall On Oil Companies, by John W. Thompson	Nov. 25,	15
Chevrolet Uses Hypoid Rear Axle; Specifies Factory-Approved Lube, by John W. Thompson	Nov. 25,	20
Fatty Acid Nitriles, Amides, Ketones for E. P. Lube Making, by A. W. Ralston, C. W. Christensen, E. J. Hoffman, W. W. Selby and V. Conquest	Dec. 9,	59
Chevrolet Approves 70, Buick 50, Hypoid Lubes	Dec. 16,	58
Patents Show Trend in Extreme Pressure Lube Technology, by J. Harold Byers	Dec. 16,	79
Performance Specifications for E. P. Lubricants? by Arch L. Foster	Dec. 23,	49
Motor and Other Fuels		
(See also "Specifications")		
Ample Future Supply of Diesel Fuel Obtainable From Various Sources, by Wm. H. Hubner and Gustav Egloff	Aug. 5,	25
Characteristics of Fuel Oil . . . Their Effect On Burner Performance, by E. B. Glendenning and W. A. Sullivan, Jr.	Aug. 12,	41
Synthetic Motor Fuels Discussed at World Power Conference	Sept. 9,	12

Title	Issue	Page
Oil Industry Discontinue Manufacture of Fuel Oil; Coal Assn. President Suggests at World Power Conference	Sept. 9,	16
Motor Fuel Produced From Coal By 3 Processes in Germany, by Oberghauptmann Schlattmann and Dr.-Ing. E.b.H. Koppenberg	Sept. 9,	24-E
Polymerization a Major Factor in Tomorrow's Super Fuels, by Gustav Egloff	Oct. 14,	25
Naphtha-Type Tractor Fuels Discussed at W. P. R. A. Mfg. Committee Meet, by Allen S. James	Nov. 4,	19
New Test Method Will Increase "Q" Maximum in Ethyl Gasoline 1.5 Octane Numbers, by Arch L. Foster	Nov. 11,	15
Synthetic Gasoline Plant Started in England	Nov. 18,	38
Stability of Residual Fuels; Fuel Tendency To Coat Heater Coils is Given By New Direct Test, by A. H. Batchelder	Nov. 18,	40
Refiners See Higher Costs in New Octane Rating by Ethyl Gasoline Corp.	Dec. 9,	19
Data On Octane Tests Being Assembled by Co-Op. Fuel Research Detonation Sub-Committee	Dec. 9,	19
Germany May Lose Lead in Diesel Field	Dec. 16,	12
200 Miles Per Gallon Claimed by C. N. Pogue for New Carburetor	Dec. 16,	15
Alcohol From Cracked Gases for Alky-Gasoline	Dec. 16,	73

Natural Gasoline

Nomograph Solves Operating Problems of Natural Gasoline Plants, by J. L. Thompson	July 22,	27
Test Tube for Sampling Tank Bottoms, by Fred L. Fender	July 22,	30
Use Residue Gas to Lift Cooling Tower Water, by R. K. McConnell and Edward Dalzal	July 22,	30
New Gasoline Plants in Mid-Continent Make Up Loss in Texas Panhandle, by Allen S. James	July 29,	29
Continental Oil's New Absorption Gasoline and Crude Oil Stabilizing Plant Newest Wrinkle in Conservation, by L. E. Smith	Sept. 23,	30
Warren Petroleum Has World's Largest Pressure Tank for Natural Gasoline	Sept. 30,	17
"Butane Machines" Increase Cooling, Improve Plant Efficiency; Carter Oil Natural Gasoline Plant in Fitts, Okla. Pool, by J. C. Albright	Dec. 2,	72

Oil Treatment

Omar Refining Reduces Treating Costs to Less Than 2c Per Barrel, by J. C. Albright	Aug. 26,	32
Comparative Costs of Vapor Phase and Other Treating Processes, by M. R. Mandelbaum and Paul Swanson	Dec. 9,	69

Paraffin Wax and Other Products

Use of Phenol Improves Wax Crystallization Characteristics, by Raphael Fussteig	Nov. 25,	30

Power Plants and Modernization

New Type Oil Engine Developed by Stefan Witkowski, Polish Engineer; Operates on Gasoline, Kerosine, Etc.	July 8,	42
11-Stream Unit Is Derby Oil, Wichita, Refinery Achievement	Aug. 19,	23
Bell Oil & Gas Modernizes Grandfield, Okla. Refinery	Aug. 19,	30
McClanahan Refineries Reforming Unit Designed for Future Cracking and Reforming With Minimum Additions; at St. Louis, Mich., by Arch L. Foster	Aug. 19,	26

Refining, General

Generalized High Pressure Properties of Gases, by K. M. Watson and R. L. Smith	July 1,	29
Oil Refining Problems Discussed at World Power Conference	July 15,	34
Wilshire Oil Co.'s New Refinery Will Make 70 Octane Gasoline From California Crude, by J. N. Westsmith	July 29,	25
Standard of California Builds Compact Refinery at Burnaby, Canada	Aug. 5,	32
Gulf Coast Fast Becoming Principal Refining Area, by Arch L. Foster	Aug. 12,	17
McClanahan Refineries Reforming Unit Designed for Future Cracking and Reforming With Minimum Additions; at St. Louis, Mich., by Arch L. Foster	Aug. 19,	26
Co-ordinate Oil Research, Drs. Taylor and Coxon Say, by Arch L. Foster	Dec. 9,	57

Refining, Costs

Omar Refining Reduces Treating Costs to Less Than 2c Per Barrel, by J. C. Albright	Aug. 26,	32
Refiners See Higher Costs in New Octane Rating by Ethyl Gasoline Corp.	Dec. 9,	19
Comparative Costs of Vapor Phase and Other Treating Processes, by M. R. Mandelbaum and Paul Swanson	Dec. 9,	69

Refining, Methods and Products

Characteristics of Fuel Oil . . . Their Effect On Burner Performance, by E. B. Glendenning and W. A. Sullivan, Jr.	Aug. 12,	41
Process Improvement Is Keynote of American Chemical Society Discussions, by Arch L. Foster	Sept. 9,	20
Catalytic Reactions at High Pressures and Temperatures, by V. N. Ipatieff, Is First Adequate Book On Catalysis, by Arch L. Foster	Sept. 16,	24-G
Leonard Refineries Recovers Doctor in Two Hours at Michigan Refinery, by J. C. Albright	Sept. 16,	24-H
Salt Removal Discussion Features W. P. R. A. Refinery Operators Meeting at Wichita	Sept. 30,	19
Solution and Gasoline Losses Low in Copper Sweetening Process, by W. A. Schulze and L. S. Gregory	Oct. 7,	34
Pure Fatty Acids Superior To Neutral Fats For Grease Manufacture, by M. L. Sheely	Oct. 28,	26
The March of Refinery Processing, by Arch L. Foster	Nov. 4,	22
Solvent Extraction Processes, by R. E. Hersh	Nov. 4,	30
SO_2 As Naphtha Solvent, by Dr. E. Saegebarth	Nov. 4,	76
Long Term Oil Research Program Essential To Industry's Health; On Catalysis, Cracking, Etc., A. P. I. Meet, by Arch L. Foster	Nov. 18,	32
The Patent Structure On Pour Point Inhibitors, by J. H. Byers	Dec. 2,	83
Fatty Acid Nitriles, Amides, Ketones, for E. P. Lube Making, by A. W. Ralston, C. W. Christensen, E. J. Hoffman, W. W. Selby and V. Conquest	Dec. 9,	59
Relationship Between Bleaching Power and Structure of Filter Clays, by Raphael Fussteig	Dec. 9,	64
Comparative Costs of Vapor Phase and Other Treating Processes, by M. R. Mandelbaum and Paul Swanson	Dec. 9,	69

Specifications and Tests

New Test Methods Proposed by A. S. T. M. for Kinematic Viscosities	July 15,	25
Committee D-2 of A. S. T. M. Makes Progress Report on Oil Tests; Ostwald and "Suspended Level" Test for Kinematic Viscosity	July 22,	35
Asphalt Institute Issues Road Asphalt Specifications	July 29,	24-B
Talco, Tex., Crude Analysis; High in Wax, Sulfur; Low v.i., Octane Number	July 29,	24-C
Characteristics of Fuel Oil . . . Their Effect on Burner Performance, by E. B. Glendenning and W. A. Sullivan, Jr.	Aug. 12,	41
Cheaper Grades of Fuel Oil Desirable; On Specification Changes, by Arch L. Foster	Sept. 2,	30
Road Men See Need for Specifications Re-		

Title	Issue	Page
lated to Service Behavior, by Jack N. Westsmith	Sept. 16,	24-A
Specifications for Motor Fuel Asked by North American Gasoline Tax Conference, by A. M. Petty	Oct. 14,	11
Specifications for E. P. Lubes Urged by National Association of Lubricating Grease Manufacturers, by Arch L. Foster	Oct. 14,	17
Engine Test Method for Aircraft Motor Oils Described by A. L. Beall to S. A. E.	Oct. 21,	23
New Oxidation Test for Studying Service Properties of Greases, by H. A. McConville	Oct. 21,	36
New Test Method Will Increase "Q" Maximum in Ethyl Gasoline 1.5 Octane Numbers, by Arch L. Foster	Nov. 11,	15
New Octane Rating by Ethyl Gasoline Corp.; Refiners See Higher Costs In	Dec. 9,	19
Data on Octane Tests Being Assembled by Co-Op. Fuel Research Detonation Sub-Committee	Dec. 9,	19
Changes in Fuel Oil Standards Proposed by U. S. Bureau of Standards	Dec. 23,	13
Performance Specifications for E. P. Lubricants? by Arch L. Foster	Dec. 23,	49
Knock Test Report Finished by Co-Operative Fuel Research Group	Dec. 23,	19
General Information		
New Type Oil Engine Developed by S. Witkowski, Polish Engineer; Operates on Gasoline, Kerosine, Etc.	July 8,	42
More Flexible Refinery Operations Assure Supply of Heating Oils, by Allen S. James	Aug. 5,	24-A
Characteristics of Fuel Oil . . . Their Effect On Burner Performance, by E. B. Glendenning and W. A. Sullivan, Jr.	Aug. 12,	41
Forced Circulation Applied to Steam Boilers, by J. R. Darnell	Sept. 2,	25
Wiggins Balloon Vapor Saving System Reduces Losses, Fire Hazard, by John H. Wiggins	Oct. 21,	25
Hot Oil Pumps, by M. G. Van Voorhis, Part I	Nov. 4,	43
Part II	Nov. 18,	44
Low Temperature Alloys, by R. K. Hopkins and H. S. Blumberg	Nov. 4,	56
High Temperature Alloys, by S. D. Williams	Nov. 4,	72
Cleaning Refinery Equipment, by Liggett Gray	Nov. 4,	83
Should Oil Company Sell Air Conditioning Equipment? by John W. Thompson, Part I	Oct. 21,	44
Part II	Nov. 18,	52
Liquefied Gas Outlets Increased, by M. J. Conway	Nov. 25,	25
"Butane Machines" Increase Cooling, Improve Plant Efficiency; Carter Oil's Natural Gasoline Plant, by J. C. Albright	Dec. 2,	72
The Patent Structure on Pour Point Inhibitors; List of Patents, by J. H. Byers	Dec. 2,	83
Refinery Control Instruments; Precise Valve Action in, by Arch L. Foster	Dec. 16,	75

N. P. N. SEMI-ANNUAL AUTHOR INDEX

Of Technical and Semi-Technical Refinery Articles

JULY-DECEMBER, 1936

Author	Title	Issue	Page
Albright, J. C.—Omar Refining Reduces Treating Costs to Less Than 2c Per Barrel		Aug. 26,	32
	Leonard Refineries Recovers Doctor in Two Hours at Michigan Refinery	Sept. 16,	24-H
	"Butane Machines" Increase Cooling, Improve Plant Efficiency; Carter Oil Natural Gasoline Plant in Fitts, Okla., Pool	Dec. 2,	72
Batchelder, A. H.—Stability of Residual Fuels; Fuel Tendency to Coat Heater Coils Is Given by New Direct Test		Nov. 18,	40
Blumberg, H. S.—Low temperature Alloys		Nov. 4,	43
Burwell, A. W.—Meaning of Some Terms Used in Lubrication; Determination of Friction Coefficients Should Be Standardized, Article II		Aug. 12,	38
Byers, J. Harold—Patent Structure On Pour Point Inhibitors		Dec. 2,	83
	Patents Show Trend in Extreme Pressure Lube Technology	Dec. 16,	79
Camelford, J. A.—Meaning of Some Terms Used in Lubrication; Determination of Friction Coefficients Should Be Standardized, Article II		Aug. 12,	38
Carey, J. S.—Polymerization Cost Yields		Nov. 4,	64
Christensen, C. W. — Fatty Acid Nitriles, Amides, Ketones, for E. P. Lube Making		Dec. 9,	59
Conquest, V.—Fatty Acid Nitriles, Amides, Ketones, for E. P. Lube Making		Dec. 9,	59
Conway, M. J.—Liquefied Gas Outlets Increased		Nov. 25,	25
Dalzal, Edward—Use Residue Gas to Lift Cooling Tower Water		July 22,	30
Darnell, J. R.—Forced Circulation Applied to Steam Boilers		Sept. 2,	25
Egloff, Dr. Gustav—Ample Future Supply of Diesel Fuel Obtainable From Various Sources		Aug. 5,	25
	Polymerization a Major Factor in Tomorrow's Super-Fuels	Oct. 14,	25
	Modern Cracking of California Crudes	Nov. 4,	78
Fender, Fred L.—Test Tube for Sampling Tank Bottoms		July 22,	30
Forney, W. E.—New Forward Cracking Process Makes 75% of Substituted Benzenes		July 8,	35
Foster, Arch L.—Gasoline Products—Donnelly Process New Licensing Agreement Clarifies Cracking Patent Situation		July 29,	24-A
	Gulf Coast Fast Becoming Principal Refining Area	Aug. 12,	17
	Reforming Unit at McClanahan Refineries, Michigan, designed for Future Cracking and Reforming With Minimum Additions	Aug. 19,	26
	Cheaper Grades of Fuel Oil Desirable; on Specification Changes	Sept. 2,	30

Author	Title	Issue	Page
	Process Improvement Is Keynote of American Chemical Society Discussions	Sept. 9,	20
	"Catalytic Reactions at High Pressures and Temperatures", by V. N. Ipatieff, Is First Adequate Book On Catalysis	Sept. 16,	24-G
	Specifications for E. P. Lubes Urged by National Assn. of Lubricating Grease Manufacturers	Oct. 14,	17
	The March of Refinery Processing	Nov. 4,	22
